

HOME OF THE AMAZING CLEANING PRODUCTS

~AMAZing Message~

Summer is upon us and along with the heat comes auto maintenance. Our auto products (Auto Cleaner and Auto Finish) were featured in Auto Restorer Magazine several months ago. This magazine of choice for very finicky auto buffs gave our auto package a big endorsement. You can read about it on our website at www.amaz.biz. If you are not currently selling the Auto Care products, you are missing an opportunity to provide professional auto maintenance products to your customers.

Along with our Water Stain Remover, Glass and Mirror Cleaner, and our All Purpose Cleaner, the Auto Cleaner and Finish are a great solution to summertime car care. Just remember, always clean your car in the shade for best results.

Remember, our special formulated Glass & Mirror Cleaner may be used on the “inside” of the car windows that have tinting. For more information, contact Kim Evans at 1-800-921-6861. Many thanks!

Sam

A-MAZ Sealant

“The Green House”

We receive numerous calls and letters from consumers praising the quality of our products. Not only do they like the fact that they “actually work”, but our materials are biodegradable and manufactured from natural resources. The ingredients are void of any acids, chlorides, chlorines, pumice, vinegars, ammonia, or bleach materials. The net effect is less pollutants in the environment making our products “safer” to use than conventional cleaners. If you have any testimonials or comments from your customers, we would like to hear from you and add their comments to our website. Feel free to contact us at www.amaz.biz or 1-800-921-6861.

Updates from The Team

ACE Hardware continues to lead the nation in sales. Our loyal ACE dealers, primarily in the West, dominate sales and support the A-MAZ line of products. If you are an ACE dealer, please note that we have custom designed **ACE** pins for your sales associates. Contact Kim Evans for “FREE” pins.

NEWSLETTER

Pointers from the Pro's

Toilets are one of the most abused items in a house, especially for rentals and apartments. Most consumers do not “manage” the chemicals used in the cleaning process. STOP using pumice stone and switch to our Water Stain Remover. The A-MAZ Water Stain Remover will not scratch porcelain, but actually clean the toilet bowl. After cleaning your toilet bowl, coat with our SEALANT (see picture on front page) and your maintenance worries are over. The toilet bowl pictured to the right is an example of the results from using a pumice stone.

Spotlight - CLOVIS GLASS

It was Lee Hoover, owner of Clovis Glass who mentioned to us that Pacific Sunmakers was selling the A-MAZ line, and we are eternally grateful. Clovis Glass, located in Clovis, CA has been selling the A-MAZ line for over 10 years and continues to be one of our loyal dealers.

OH CANADA

Vancouver, British Columbia, Canada was the sight of the joint Economic Summit sponsored by the Governor of California. Sam was one of a handful of guests representing GREEN California companies. Below is a picture of our display with a male model look-a-like of Sam. While attending the Summit, we established our very first dealer in Canada—Niko's Vac's to Wax, in Langley, British Columbia
